

## LEXINGTON'S FIRE LOSSES RUN CLOSE TO \$800,000

Five of the Largest Mercantile Stores Included in Tuesday's Fire—Origin Unknown

Lexington witnessed one of the most disastrous fires Tuesday that has been reported in that city for many years. The fire, which started from an unknown origin, was discovered by Mr. Dolphie Wiley at 10:30 o'clock, when he noticed smoke issuing from the ventilators on the street from the basement of the Wolfe, Wile & Company's store, of which he was one of the owners.

Five of Lexington's big stores, including Wolfe, Wile & Company, Kaufman Clothing Company, J. D. Purcell Company, Peerless Company and Hammel's store, suffered heavy losses from the disastrous Main street fire, estimated to reach close to \$800,000 with nothing like enough insurance to cover that amount.

It will take several days before some of these well known firms will be ready to continue business. Announcement was made late Tuesday afternoon that Wolfe, Wile & Company and the Kaufman Clothing Company were the greatest sufferers from the fire, and that they would establish temporary offices on the third floor of the Lexington Leader building.

Details of the conflagration in the Leader give one some impression of the devastation of this disastrous blaze.

"Fire, the origin of which has not been determined, breaking out in the basement of the Wolfe, Wile & Company's department store at 10 Tuesday morning, had totally destroyed that building adjoining on the east, which is occupied by the Kaufman Clothing Company, within an hour and a half in spite of all the efforts of the entire Lexington fire department and scores of volunteer workers to control the flames.

"The fire started in the basement under the sidewalk and swept up the elevator shaft to the upper floors within a few minutes.

"When the fire department reached the store smoke was pouring out of the upper front windows.

"Several streams of water were started on the fire immediately, but the flames continued to spread rapidly and a portion of the wall had collapsed on the roof of the Kaufman Company store within 30 minutes.

"Soon after this two lines of hose were taken into the Kaufman store to fight the flames, which had broken in through the hole in the roof caused by the falling wall.

"Several additional hose lines were taken to the roof of the building and played on the Kaufman building, but it seemed at 11:45 o'clock that this building and contents also would be practically a total loss.

"Fire had not reached the inside of the J. D. Purcell Company's store at 11:30 o'clock, but the goods on the third and fourth floors were badly damaged by smoke and water.

"Volunteers directed by firemen took two lines of hose to the roof of the Purcell building and played streams of water into the seething furnace below.

"After the Wolfe-Wile roof had fallen in the two streams of water being played upon the fire from the aerial truck were halted a minute for the tower to be lowered and the truck moved to the north side of Main street to let out of reach of the front wall, which showed signs of falling. The front of the building, however, withstood the terrific heat and was still standing at noon.

"The fire started at 10:10 in the basement of Wolfe, Wile & Company, 322-324 West Main street, and spread to the Kaufman Clothing Company, 314-316 West Main street.

"Dolphie Wiley, one of the owners of Wolfe, Wile & Company, was standing in the front door talking to Richard Van Der Veer when he noticed smoke curling up thru the ventilators on the street from the basement. The cause of the fire is unknown. It spread rapidly and soon after it was discovered the flames started shooting up the elevator shaft.

Mr. Wile and Mr. Van Der Veer rushed to the third floor and spread the alarm among the clerks. About 90 persons are employed in the building, but all escaped without injury and in perfect order. There was no evidence of a panic in any of the buildings. The entire equipment of the fire department responded to the alarm and 11 streams of water were played on the burning buildings. All available police were summoned for duty in the burning district and police lines were stretched. The lines were stretched at Broadway and Mill streets on Main and Water streets. Police and detectives joined kept the crowds back.

"Thousands gathered to watch the burning buildings. The police ambulance was called and was ready for emergency.

"Soon after the fire was discovered the entire building occupied by Wolfe, Wile & Company was a mass of flames.

"The roof fell about 10:45 and bricks fell on the rear part of the Kaufman Clothing Company building when part of the wall gave way.

Five streams of water were played on the fire from Main street and six sets of hose were used from Water street. Two lines of hose were placed on the extension ladder and the flames on the third floor of the burning Wolfe, Wile & Company building on the Main street side were fought.

"Strong pressure was maintained by the automobile fire pumps.

"Firemen sealed the five-story fire escape of the J. D. Purcell & Company building from Water street and a hose, but later brought it down and placed it in the windows of the fourth floor. Several firemen remained on the roof to direct the throwing of water.

"Three streams were played on the building of Wolfe, Wile & Company from Water street. The firemen climbed the roofs of nearby buildings with two more hose.

"For a while it appeared as if the entire block would be destroyed, but the firemen worked with determination, and succeeded in confining the flames to the three buildings.

"From the roof of Wolfe, Wile & Company the flames shot skyward for about 50 feet and the smoke from the fire could be seen for miles.

"All traffic on Main and Water streets were held up by the ropes, lines and even railroad engines could not pass on Water street.

"In the Kaufman Clothing Company water was thrown over a large part of the stock in an effort to check the blaze on the second floor.

"Windows of every building from which the fire could be seen were filled by people watching the fire. Many other persons were on the roofs.

"Scores came from surrounding towns when they heard of the conflagration."

## CLEVELAND HOTEL SWEEP BY FLAMES

Cleveland, O., Jan. 12.—Two men are dead from burns and suffocation and eight persons were injured in a fire which swept the Chestnut hotel, early Tuesday morning.

Several persons are said to be missing. Firemen and police were searching the still blazing building for additional bodies three hours after the fire started.

The injured, including three women, were hurt in wild leaps from second story windows. Life nets were spread by firemen, but in the dense smoke and darkness several of those injured were hurt when they missed the nets.

Police say that the fire escape collapsed a few minutes after the fire started, cutting off escape by the iron structure after a few of the hotel occupants had reached safety that way.

The dead are: Andrew Wurmel, 49, a waiter, burned to death; Clarence Wurmel, 20, burned and suffocated.

Berg, 30, burned and suffocated.

## SALES CONTINUE ON LOCAL MARKET

Average of 17 Cents Reported at Tuesday's Sales—One Basket Brings \$50

The Richmond tobacco warehouses continued selling tobacco Tuesday, and the average of the last few days of 17 cents is still maintained. According to a large number of expressions from those on the floor at the Madison House Tuesday this average was considered good, taking into consideration the quality of tobacco offered. Over 125,000 pounds went over the breaks Tuesday, with a smaller per cent of rejections than on previous sales. One basket included in the sales went over the \$50 mark.

In an interview with one of the largest tobacco growers in this county Wednesday morning, it was learned that the sentiment of the Madison county growers favors the 1921 crop, and also that the present crop continue selling. This gentleman, whose name is withheld, stated that he had been at the local warehouses daily and from his observations not a single crop on the floors has been shipped, every man giving his permission to sell.

The proposition is left to the owner whether his tobacco is offered, and drawing conclusions from the ready response on the part of them to sell, naturally leads one to believe that the sentiment in Madison county is to sell the 1920 crop. However, it is up to the majority of tobacco men to get together and make their intentions known, and unless this is done, no matter how strong may be the sentiment for continuing the sale of the present crop and not cutting the 1921 crop their desires will be naught, but it is the belief of a large number of prominent farmers in this section that the sales will continue in Madison county.

**INSURANCE SUICIDE  
CLAUSE NOT SUSTAINED**

Louisville.—In ruling that Miss Florence Harris had a cause for action against an insurance company, Judge Gordon ruled that under the law of Kentucky a insurance company can not have a suicide clause in a policy to be exempt from its payment if it is shown that the insured did not have mental capacity sufficient to understand the nature and result of his act.

Berg had made his way from his room but collapsed outside in the hall overcome by smoke.

Wurmel, fire officials say, was responsible for the fire, thru the careless handling of a burning cigarette.

Army of Occupation Reduced in Numbers to 8,000—Present Cost Was \$75,000 a Day

(By Associated Press)  
Washington, Jan. 12.—Reduction of the American forces in Germany from 15,000 to 8,000 has been ordered by the army department. Secretary Baker said the reduction was already under way, and added that the ultimate withdrawal of the entire force was a matter of "future consideration." The cost of maintaining a force of 15,000 amounted to \$75,000 per day, which Germany must pay under terms of the armistice.

He asked for legislation to meet conditions in view of the "certain fact that the state will be harassed and afflicted with a continuation of struggles to extend the union organization into non-union areas." He asked for legislation in order that "this state may not be a continued battlefield and perpetually held up to the country as a land of violence and bloodshed."

## MADISON TO CONTINUE SALES; AND VOTES NO "CUT-OUT"

Committee Named to Attend the Lexington Meeting Thursday and Give Decisions

Complying with the request made by the Burley Tobacco Growers Association for a mass meeting of the tobacco growers of Madison county, the lower court room was jammed to the front door Wednesday afternoon at 1 o'clock.

Mr. Green Clay, acting secretary for the Burley Tobacco Growers' Association, called the meeting to order, and nominations were made for a chairman of the meeting, with the result that Mr. Waller Bennett was unanimously elected, and E. T. Wiggins, representing the press, was chosen secretary.

Mr. Clay gave very clearly the reasons for the meeting being called, asking that free discussion of the tobacco situation in Madison county be given by anyone desiring to express themselves.

Mr. Bennett, chairman, after again stressing the point that the meeting was for the Madison growers, called upon several to give their views on the situation whether or not the tobacco warehouses in Richmond should close and the farmers hold their crops with the expectation of getting better prices, and whether or not the farmers should join the Growers' Association in cutting out the 1921 crop if they so decided at their meeting in Lexington on Thursday morning at 10 o'clock.

Mr. T. H. West was the first speaker, who favored holding the tobacco and for a cut-out of the 1921 crop. Dr. G. G. Perr took the floor and made several good points why it was for the farmers' interest for the local warehouses to remain open and sell their tobacco and cut the 1921 crop down, but not agreeing for a complete cut-out.

Attorney O. P. Jackson made a few splendid remarks, discussing his question from both standpoints of view, and offering suggestions as he thought best for the Madison farmers. He was followed by Mr. Warfield Bennett, who is not only a grower, but is interested in one of the local warehouses. It is his talk he stated that it would not be doing the warehousemen right for the farmer to withhold their tobacco and pool it in Lexington, which is clamoring to be the tobacco center of the state. He pointed out that the tobacco warehouses here were not forcing any man to sell his crop. They were open for the sale of their tobacco if they wanted to do so, and that they had the tobacco men's interest at heart and that if the houses here were forced to close for twelve months or more they were taking chances of losing money, or perhaps never to be able to reopen. His views brought loud applause from all parts of the house.

Hon. W. B. Smith, Mr. Newby, a farmer; Mr. T. S. Burnam, N. B. Deatherage, Col. H. B. Hanger and others spoke on the questions, some for while others were opposed to the closing of the present market and the cut-out of the 1921 crop.

At the conclusion of the talks by the above named gentlemen, Chairman Waller Bennett asked the crowd if they were ready for the question to be voted upon. With loud cries of "we are ready" and after order had been restored, the chairman in a very clear manner put the two questions before the house, namely: First, "Are you in favor of stopping the sales of the present crop?" Second, "Are you in favor of a cut-out of the 1921 crop?" On the first question there was an almost unanimous vote on the question that the houses in Richmond remain open, and that the farmers continue selling their crops. Upon the second question there was no doubt left in the minds of anyone that the majority of the farmers present were against the cut-out for 1921. The chairman then appointed a committee of four, composed of Messrs. Dick Igo, Neale Bennett, Judge W. J. M. Price and Warfield Bennett, to represent Madison county at the meeting at Lexington Thursday, and convey to them the sentiments and decision of Madison county tobacco growers. This brought to a conclusion one of the most interesting meetings ever held by farmers in this county.

## GEN. BLISS SAYS WORLD IS READY TO DROP ARMS

Thinks Nations Would Respond Promptly to U. S. Call for a World Conference

(By Associated Press)  
Washington, Jan. 12.—Should the United States call upon the nations of the world for a full, free and fair discussion concerning the reduction of armaments, favorable response would be prompt and inevitable, General Tasker H. Bliss, former American representative on the supreme war council at Paris, told the house naval committee today.

The general said if a disarmament conference were held "the common people of the world would not allow the conference to dissolve until at least a first forward step was taken." "I do not care," he added, "what cabinets of the world think. The masses of people who pay taxes have a vital interest in this subject."

Meanwhile, he said, all nations of the world are ready to talk disarmament seriously.

The secretary gave the committee detailed information regarding the relative naval strength of the great powers.

Bliss also told the committee the nation which would come to such a conference with a refusal "could be written down as the next Germany, and the United States could make plans accordingly."

## WANTS TO TAKE OATH ON CAPITOL'S PORCH

(By Associated Press)  
Marion, O., Jan. 12.—President-elect Harding today suggested to the inauguration officials at Washington that he take the oath of office on the east porch of the capitol instead of in the senate chamber, as planned by the congressional committee, "provided it can be arranged without special construction for the occasion."

Now that public expenditure has been abandoned, Harding wired Senator Knox, chairman of the congressional inauguration committee, his own concern in the matter was ended, but he is ready to assent to details of the oath taking that the committee deems best.

## COLUMBIA YEGGMAN CAUGHT IN INDIANA?

Louisville, Ky., Jan. 12.—The police today received word from the Indianapolis police that they were holding a suspect in the attempt to rob the bank at Columbia, Ky., Monday morning. The sheriff of Adair county was notified.

## HERE'S "DRINKERS OF SUNSHINE"

(By Associated Press)  
Algiers, Jan. 12.—"The Drinkers of Sunshine," as the Arab shepherds call themselves in their own language, are on the verge of starvation throughout Algeria and unless wheat is imported from America may have nothing but sunshine as a steady diet during the winter. The threatening famine in Algeria is the result of a long drought. No rain has fallen for a year.

This has proved a calamity for the Arab shepherds, nomads living practically by their flocks. Seventy-five per cent of the sheep in Algeria have died as a result of the drought and the Arab "Drinkers of Sunshine," dreamers and philosophers, incapable of any work but that of guarding their flocks are in dire straits.

## NERVOUS, IRRITABLE, AILING WOMEN

Mrs. Britten Tells How She Was Restored To Health After  
Suffering for More Than A Year.

Another Triumph for Lydia E. Pinkham's Vegetable Compound

Dimondale, Mich.—"I had inflammation and a displacement and weakness, and it had been neglected so long that it caused great pain, and this affected my mind and nerves so that I was very irritable. I had severe pains every month, so that I was often obliged to lie in bed for two days at a time. I suffered for more than a year before my friends said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' So I purchased one bottle after another until I had taken ten bottles, then Lydia E. Pinkham's Vegetable Compound. I received so much benefit from this treatment that I am now able to do my own work."—Mrs. W. D. BRITTEN, R. No. 2, Dimondale, Mich.

Another Michigan woman says: "I was bothered for a long time with female troubles and was so nervous I felt almost afraid at times. I also had a pain in my right side and was certainly in a bad way. Lydia E. Pinkham's Vegetable Compound has relieved me of these nervous feelings and pains and I am much better in every way. I don't know just how many bottles I have taken, but I took it for nearly a year and it has done me a world of good."—Mrs. JESSIE GRANGER, R. No. 8, Box 51, Kalamazoo, Michigan.

Good health is a woman's greatest asset. With it she may be the inspiration of her husband, a happy mother, and the life of the home. Without it she suffers agonies herself, household duties are a burden, and her family is made miserable by her condition.

Is it any wonder that these women were nervous and irritable after suffering so long from such deranged conditions? Such ailments act directly upon the nerves, and it has been said that a large percentage of nervous prostration, nervous dependency, "the blues," and nervous irritability of women arise from some derangement of the female organism.

If women who are in this condition would only profit by the experiences of others and take Lydia E. Pinkham's Vegetable Compound at once, much suffering and unhappiness would be averted, as everyone knows a nervous, irritable, ailing mother makes the home unhappy and her condition irritates both husband and children.

Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

### Near East Relief

Near East Relief is a federal corporation, chartered by Congress. Its accounts are carefully audited by certified public accountants, and reports made to Congress.

Near East Relief provides food for the hungry. For instance, a few weeks ago 180,000 thousand refugees were being fed in one city in the Caucasus. This food had to be provided every day and if the funds stopped for a week all of these people would have perished.

Near East Relief provides shelter for the homeless. There are 220,000 orphanages, with an enrollment of 52,000 children and also 38,000 other children cared for outside of these buildings. There were recently acquired an additional 60,000 children from Russia, who came into the Caucasus.

Near East Relief provides rescue for imprisoned women and girls. There are eleven rescue homes full to overflowing. If more funds were provided, more homes could be opened and filled immediately. There are more than 100,000 of these Armenian women and girls in Turkish harems, but their release cannot be demanded until places of shelter for them are provided or their relatives if any can be located. Near East Relief is building up industrial life. There are employed 23,000 men, women and young people in Near East factories. Near East Relief provides repatriation for refugees, returning them to their homes as far as possible when it is safe to do so.

Near East Relief desires the co-operation of every American. The Armenians are suffering because of their religious convictions, their loyalty to principle, their adherence to the cause of the Allies for which we are under obligations to them in saving their life and thus saving American life by shortening the war. Near East Relief is perhaps the most popular philanthropy in America because of these facts and also that of all the relief areas in the world, the Near East is the only place where no government aid is available. The Armenians are surrounded with neighbors who would rejoice in their extermination. They are the remnant of a martyred Christian race, whose fathers and relatives have died for the Christian faith, but this remnant, and especially the thousands of orphans who we are now supporting, constitute the hope of the future for the Near East Relief.

## FILIPINAS GET BALLOT BEFORE AMER. SISTERS

Senora de Veyra Describes  
Status of Women in the  
Philippines.

The Filipino woman is destined to be in the world's spotlight more than ever before as a result of the news just received by cable from Manila to the effect that the Philippine senate has passed the equal suffrage bill giving women full political rights with men. This would indicate that the Filipina may beat her American sisters to the ballot box.

The Filipina has many admirers who predict she will make good if she gets the vote, just as she has made good to the very important role she has occupied in the family and business life of the Philippines ever since the introduction of Christianity in the islands three centuries ago.

"America's advent in the Philippines discovered a wonderfully interesting, responsive little being, the Filipino woman," writes one American concerning

MRS. JAIME C. DE VEYRA,  
A Filipina who is doing important work for her people in the United States.

the Filipina. "Mothering the only Christian people in the far east, she holds a place of authority, love and respect in family and social life that is not accorded to women in countries neighboring the islands, or in India, China or Japan."

A Filipina who is doing an important work for her people in the United States is Mrs. Jaime C. de Veyra, wife of the resident commissioner from the Philippines. Not only has she frequently addressed the wives of members of Congress in Washington as to conditions in the new Philippines, but she has visited various cities, speaking before women's clubs. The senora is a beautiful woman of her home land, a delicate pinhead fabric, hand-woven and hand-embroidered, shaped like a gauzy-winded butterfly.

MATT COHEN PAYS \$2,223  
Frankfort, Ky., Jan. 12—Matt, S. Cohen, former Commissioner of Agriculture, has paid to the State Auditor \$2,223.25, in settlement of claims made against him by the State Inspector and Examiner in his report of last September for items in his traveling expense accounts which the Inspector considered duplications on their faces. Going about seeking contributions to premium funds the Commissioner had to do some entertaining and incurred expenses which were not considered legitimate by the Inspector.

## 26,483 DOGS IN STATE UNTAXED LAST YEAR

Madison County Made Good Record But Many Other Counties Are Behind

(By Associated Press)  
Frankfort, Ky., Jan. 11—Owners of at least 26,483 dogs in Kentucky failed to pay the license tax on their pets during 1920, according to the figures just made public here at the office of the State Commissioner of Agriculture W. C. Hanna. Licensed dogs, reported to the commissioner, up to December 31, were 144,499, while tax assessors of various counties listed 170,984. In some counties more dogs have been licensed than were reported for taxation.

Evasion of the dog license tax law, however, is so general in some communities, according to officials of the Department of Agriculture, that efforts are being made to secure indictment and punishment of offenders. In Christian county several hundred persons have been indicted, while officials in other counties have started action looking to the enforcement of the tax law. Books of the commissioner show that in Jefferson county only 653 out of 6,164 dogs reported for taxation, have been licensed during the year, while in Campbell county records show 323 dogs licensed as against 1,600 listed for taxation. Dogs taxed in Wayne county totalled \$85 as compared with 1,768 listed; Laurel 505 taxed and 1,329 listed; Marshall 624 taxed and 1,003 listed; Morgan 833 taxed and 1,235 listed and Pike 2,098 taxed and 3,621 listed.

The records show that 151,816 male dogs and 17,552 females were listed for taxation. No figures were available as to the possible number not listed, or the distribution of license fees between males and females.

Officials stated that the change in the fees paid for handling dog tax money had, in their opinion, had the effect of causing some laxity on the part of county officials in its enforcement. The law provides that 15 per cent of the fee of \$1 for males and \$2 for females shall go to the county clerk for collection; 5 per cent to the assessor and 3 per cent to the State Department of Agriculture for expenses. The remainder is given into the charge of the fiscal courts of the various counties in payment of claims for animal damaged by dogs. County clerk formerly got 25 per cent, assessors 10 per cent and the Department of Agriculture 5 per cent.

Dogs listed for taxation, and those on which taxes were paid by counties in Central Kentucky follow:

## MOTHER'S FRIEND

Simply and tersely stated, MOTHER'S FRIEND is just exactly what the name implies—a friend and help to mothers.

It has been made and sold for more than half a century. If it did not possess the value claimed for it, MOTHER'S FRIEND could not possibly have remained on the market. For only that which is really worth while and beneficial can survive.

The mothers who appreciate MOTHER'S FRIEND the most, and who are loudest in their praise of it, are those who unfortunately did not use it with their first baby, and who, through its use with the second one, were able to fully realize the relief it gave them.

DIDN'T EVEN NEED THE DOCTOR  
"Dear Sir: I am willing and anxious to tell any mother about MOTHER'S FRIEND. It did me so much good that I wouldn't be without it if it cost \$2.00 a bottle. With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I only had a nurse; no doctor, no time to get a doctor because I wasn't very sick and only sick about ten or fifteen minutes.  
"Any mother can write me and I will only be too glad to give her advice. Yours truly,

## Health and Happiness for Women

Every woman seeks happiness as the thing to be most desired. Fortunately, the right to happiness is denied to no woman, regardless of her sphere in life. The first and foremost essential is good health. Without good health, strive after happiness as she may, it is beyond her reach. If she will accept the advice of thousands of women, who have been benefited, she will take Dr. J. Bradfield's Female Regulator—a tonic for women and for troubles peculiar to their sex, which has been sold by drug stores for more than 50 years. Dr. J. Bradfield's Female Regulator is put up in \$1.00 bottles.

AND HER NAME WAS "MAUD"  
Mt. Sterling, Ky., Jan. 12—Old Fan a mule owned by G. W. Anderson, died at the authenticated age of 47 years. She was foaled on the Kavanaugh Tipton farm and registered 20 years ago when Anderson bought her 27 years ago. Until two years ago she had been worked every day. A barn on the place burned some time ago, and a number of valuable horses and mules perished. Old Fan was in the structure and pawed off enough planks to make her exit, with no other marks than singed hair.

**D. A. R. Meeting.**  
The first meeting of the new year of the Boonesboro Chapter, D. A. R., was held with Mrs. Jennings Greenleaf. The program committee had arranged a very interesting course of study for the year along the lines of woman's place in the history of this country.  
The women of the Colonial and Revolutionary days were under discussion and proved to be a group of rare interest. Mrs. Keith gave the magazine report in her usual thorough manner.

This was followed by Mrs. Caperton's talk of those two widely different, though equally interesting, characters, Mollie Pitcher and Abigail Adams, and given in Mrs. Caperton's always delightful style, was particularly enjoyable. Each character discussed through the afternoon had stood in her own splendid way for the betterment of her people and her country during years of stress and each was worthy of more than passing mention. These accounts were given in turn by Miss Jennie Park, Mrs. Sullivan, Mrs. Kellogg, Miss Bessie Miller, Mrs. Turley and Miss Bessie Dudley.

Delegates and alternates to the National Convention in Washington this spring were elected, after which the Chapter adjourned.  
The social hour and delicious refreshments were especially enjoyable as Mrs. Greenleaf's gracious hospitality at once makes every one feel at home and welcome. With this very auspicious beginning the historical prophecies for the Chapter a year of exceptional pleasure and profit.

**FULL-BLOODED PEOPLE  
ENJOY LIFE**

If Your Blood is Thin, Take Pepto-Mangan. It Makes Rich Red Blood

Just look around you and notice the kind of people who enjoy life. They are the full-blooded people. Sallow complexioned, dull-eyed people don't have much fun. How can they, with blood that is lacking in life-giving red corpuscles? It takes red blood to do good work, to enjoy life, to be congenial, to be somebody.

If you feel run down and out of sorts most of the time, if your complexion is back it is probably due to starved blood. When you get that way, you need Pepto-Mangan. It will pick you up and put you in the class of people who step out and do things. With plenty of red corpuscles you enjoy the excitement of life. Whether you work or play you find your self getting things done and taking real pleasure out of life. You stand on your two feet in good health.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. Comes in either liquid or tablet form. The medicinal properties are the same.

Sold at all drug stores. But be sure you get the genuine Pepto-Mangan with the name "Gude's" on the package. Ask for it by the full name, "Gude's Pepto-Mangan."—Advertisement.

### LETCHER COUNTY TO HAVE GOOD ROADS

Judge Whitaker Says Over \$300,000 Will Be Expended and Roads Finished Soon

(By Associated Press)  
Whitesburg, Ky., Jan. 12.—"When the blue birds go south," next fall Fess Whitaker, County Judge of Letcher county, who was elected on a good roads platform while incarcerated in the county jail of which he at that time was jailer, expects to have "an 18-foot road all over Letcher county," he said here today in making public his plans. He is going to pay especial attention to the road from Jenkins, Ky., through the coal fields leading into Perry county, he said.

Judge Whitaker announced immediately after his election in November that he expected "to pull Letcher county out of the mud" within a year. His plans, made known today, calls for four days a week of personal work on the roads and two days weekly in the county judge office, except during the weeks when county court and quarterly court meet.

Letcher county voted \$300,000 worth of road bonds at the November election last fall. The issue is now being printed and an order has been issued by Judge Whitaker for the immediate sale of \$50,000 worth, bids for eight miles of new road already have been asked for and instructions issued that all "engineering, blue prints and red tape," must be completed not later than April or the first of May, for all new road work expected to be done during 1921.

"When I called my fiscal court together on January 1, my first work was to abolish free labor in the county," said Judge Whitaker. "Second I paid every dollar Letcher county owed, and my third order was to issue \$300,000 worth of road bonds that were voted November 2, 1920, so that they would immediately begin drawing interest. I then ordered \$50,000 worth sold as soon as issued."

"Immediately afterward I ordered bids and bonds made for eight miles of new roads and filed plans with the county engineer notifying him that all engineering, blue prints and red tape must be completed by not later than April or the first of May for all road work expected to be done during 1921."

"So when the sun comes up over the sunny slopes and the shadowy vales of the Classic Cumberland, where the brooks murmur and the flowers bloom, and the morning robins sing their sweet songs and when the toad frogs sing their farwell song in Letcher, people can say 'it must have been Fes that caused us to move. If he keeps up like he is going now there will be no more mud-holes left after he gets through and with the surveying all done and the blue prints filed there is nothing to do but work."

"I expect to put on 100 teams and 500 men and when the blue birds begin to go south, the part of November or December, and the pouring of the powder and dynamite ceases, I expect to have an 18-foot all over Letcher county, well crowned and with a two-foot ditch, especially from Jenkins, Ky., through the coal fields leading to Perry county."

"I expect to spend four full days each week on the road with contractors, steam shovels, ditchers, and common laborers. On Wednesdays and Saturdays I expect to place my feet under the judge's desk and do the office work, except on county court and quarterly court days of each month."

## You want a Battery that fits

"You're right. You can't put a short, fat battery into a long slim box in your car. Then you want a battery with terminals that will shake hands like old acquaintances with your car's wiring terminals.

"But the main thing is to give you a battery with the right capacity to work in harmony with your car's electrical system. Your cutting-in-speed counts—that's the speed at which your generator begins to do business—and the number of amperes it feeds into the battery. Those are just some of the conditions your battery must work under. What it all means is that you want a battery of the right capacity to digest the current fed into it and to handle its work without strain.

"We have EXIDE batteries in all sizes and type to replace batteries of all makes. But we won't sell a battery if your old one is repairable. No matter what its make, if its plates are still sound enough, we'll rejuvenate and guarantee it."

If your battery needs recharging, phone 428—we call for and deliver your battery. We also have rental batteries for use while yours are being recharged or repaired.

### MR. WILSON'S NEW HOME IS PALACE

Mr. Wilson, who has bought a house on S street in Washington, will be the first ex-president to make his home in Washington. Friends of President Grant presented him with a beautiful residence on I street, with a few blocks of the White House. He never lived in it, but sold the property to General Sherman and moved to New York when his term expired.

The home is regarded as one of the first examples of Colonial architecture in Washington. It is built of colonial brick and Indiana limestone and is fireproof throughout. The house is on raised level well off the street, the grounds surrounding it covering nearly half a block. The entrance is through a large hall. A wide colonial stairway leads to the second floor, and from the first

landing a beautiful view is obtained of the floral garden in the rear of the building.

The second floor contains a large library, a formal reception room and a dining room. An unusual feature is an oval sun parlor, which affords a commanding view of the city looking south toward the river.

Six masters' bedrooms, and four bath comprise the third floor. Servants' quarters are located on the fourth floor.

To the west of the building there is a 20-foot lawn, and at the rear a large formal garden extending through the entire block. The garden is enclosed by a stone balustrade and is treated in a formal way with hedges and walks of stone flags. There is a miniature fountain in the center.

#### CHEER UP, TOBACCO MEN

Williamstown, Ky., Jan. 12—It is T. Dickerson, 72, vice president of the Deposit Bank, and a man of wealth, died at his home here. His success in business was attributed to the fact that when a young man speculation in tobacco broke him. Years later he recuperated his losses, but was noted for his caution in financial affairs until his death.

W. H. BRANDES, of Des Moines, Iowa, who declares he gained twenty pounds in thirty days after taking Tanlac and now feels like a different man.

"Thirty days ago or a little more, I only weighed 125 pounds, but now I balance the scales at 145 pounds and Tanlac did it," declared W. H. Brandes, a well-known and highly-respected citizen of Des Moines, Iowa. Mr. Brandes has been looking after the plumbing work of the Des Moines Public Schools for the past nineteen years.

"And many of the teachers and scholars can tell you how different I look since I began taking Tanlac," he said. "I suffered from indigestion of the worst kind for the past year or more and was often so weak and dizzy I couldn't stand up, let alone walk. Nothing helped me. I finally had to take my bed and stay there for several weeks. Finally a friend persuaded me to try Tanlac and I have never seen or heard of anything equal to it. It relieved me entirely of indigestion and put me right back on my feet. I have not only gained twenty pounds in weight, but I feel like a new man in every way. I just think Tanlac is the finest thing ever sold in a drug store."

Tanlac is sold in Richmond by Stockton & Son; in Berea by the Welch Department Store, and at College Hill by Gentry Bros.

## NEW HOME TO BE & MODERN INSTITUTION

The village of cottages, which the Kentucky Children's Home Society plans to have erected in the spring of 1921, will be located on a tract of land containing 86 acres, about ten miles east of the city of Louisville. It will be a haven where destitute orphan children will be received and made happy and comfortable, and will be one of the greatest citizen factories in the state.

Handicapped as it is at the present time, to the inadequate, poorly equipped quarters, the Society is sending out annually large numbers of well trained boys and girls to aid in Kentucky's upbuilding. The children received into the new home will be comfortably housed and provided with adequate playgrounds. Bereaved of parents and deprived of their own homes, the loss will be made up as far as possible by sunny, attractive quarters, large playgrounds and surroundings that will in every way conduce to happiness. The older boys will help cultivate the land, raise fruits and vegetables, thus cutting down the expense of maintenance and giving the boys useful employment at the same time. The girls will be trained in domestic arts, and all of the children will be given whole some occupations to develop their minds and bodies.

There will be about 25 children in the cottage, and over each cottage there will be a "house-mother," making it in every respect as much like a real home as possible. All will eat together in one large dining room. There will be a modern, well equipped hospital, also a laundry, two of the things most sadly needed now. The cottages will be arranged in a square, in the center of which will be the church and school buildings. Services will be conducted by ministers from the various churches, since the institution is absolutely non-sectarian.

When the new home is completed, it will not only be equipped to meet the present needs, but it will be so planned that additional buildings can be erected at any time to meet the increased demands for several generations. It will accommodate at least 300 children, while the capacity of the present buildings is 150 children. However, the Society has crowded as many as 250 into the institution, at which time it was necessary for them to sleep four in one bed. Today it is caring for 165 homeless little ones in the receiving home, to say nothing of those 1,500 under the supervision out in the state, and is daily refusing admittance to others. Under these conditions, it behooves Kentuckians to rally to the support of the Kentucky Children's Home Society and see its New Home project through to a successful finish.

Inasmuch as the state is reported to be something over \$2,000,000 in debt, it will probably be many years before it can begin to build new institutions. The problem of maintaining the institutions now under its care, is as much as the state can do now, so it is up to the citizens of Kentucky generally, to see to it that its destitute children are not neglected now.

## O. L. ARNOLD BUYS THE DIXIE INN

The Dixie Inn, on West Main street, which has been under the management of Mr. Luther Burris and wife, changed hands the past week, when Mr. O. L. Arnold purchased the building, the house furnishings, etc., at a price which is understood to have been a profit over what Mr. Burris paid for it some time ago.

It is the intention of Mr. Arnold to carry on the business and he is planning to make extensive improvements in the near future. He will be given possession February 1. Richmond is sorely in need of rooming houses, especially for the transient trade, since the hotel is frequently taxed to

### MODEL HIGH VERSUS CLARK COUNTY HIGH

When Model High faces the strong basket ball team from Clark County High School next Thursday night the future of the local team will become known. Clark county claims to have the fastest team in this section of the state and as Model High is anxious to get into a tournament at the close of the season, the result Thursday will be awaited with eagerness by all interested in the local lads. It does not necessarily mean that Model High does not have a chance to get into the tournament, if the game is lost to Clark county, but it will mean much to win from that fast team. Coach Hembree has been working directly with the boys since the last game. The boys are working better and he is quite optimistic as to the outcome Thursday night. The Model boys have a strong following which they gained during the football season. They can be counted on to do their best and to fight every minute of the game.

### HERE'S A BIG OFFER

In order that every family in Madison and adjoining counties may be able to take a daily newspaper and keep up with the tobacco, stock and land sales in 1921, The Richmond Daily Register is making an unparalleled offer to send new subscribers in Kentucky the paper mail daily except Sunday.

ONE YEAR FOR ONLY \$2.50

and one year for \$3.00 if you are already a subscriber on its list and wish to renew for a year. Subscriptions out of Kentucky will remain at \$4.00 a year on account of high postage rates.

Send in your subscription quick. This great offer will only be good until January 31, 1921. After that the usual rates will prevail. Paper has decreased in price a trifle, and The Daily Register has been fortunate in securing a carload at the lowest possible figure. It is willing to pass the benefit on to its subscribers as long as it lasts.

### TELL YOUR FRIENDS

of this liberal offer. You can't buy a daily newspaper as cheaply anywhere,—only \$2.50 a year for new subscriptions in Kentucky. No subscription taken for a shorter period than a year at these rates.

### WHAT YOU GET

In addition to carrying full reports from all the important tobacco warehouses and markets, the Daily Register has the Associated Press wire and mail reports, Cincinnati and Louisville live stock markets correspondents all over this and adjoining counties and reports of farm and land sales from practically every county in this part of Kentucky.

### IT IS KENTUCKY'S LIVEST COUNTRY DAILY

ALL SUBSCRIPTIONS ARE STRICTLY CASH IN ADVANCE. The paper is stopped when time for which it has been paid, expires. No deadheads are carried. Send in your money now and watch the way tobacco sells in the burley districts and how farm values are going.

**\$2.50 a Year for New Subscribers—\$3.00 a Year for Renewals**

All by prepaid mail—rates in the city of Richmond by carrier are a trifle higher. Send check, money order or cash at once to
